December 2nd ~*

CQIR

The mission of the Center for Quality Improvement Research/ VA HSR&D Research Enhancement Award Program at the Louis Stokes Cleveland Veterans Affairs Medical Center is to conduct research on health care quality and quality improvement for the benefit of veterans and the population as a whole; develop models to characterize important quality and cost issues related to the improvement of health care delivery and outcomes; build capacity for health services and quality improvement research; and foster healthcare improvement by effective dissemination of our research findings.

CHRP

The mission of the Center for Health Care Research and Policy (CHRP) at Case Western Reserve University/ MetroHealth Medical Center is to: (1) improve the health of the public by conducting research that examines access to health care, increases the quality of health care services, and informs health policy and practice; and (2) lead educational programs that promote these goals.

GRECC

The mission of the Geriatric Research Education and Clinical Center (GRECC) at the Louis Stokes Cleveland Veterans Affairs Medical Center is to improve quality of life and quality of care for older veterans. This mission will be accomplished by conducting and disseminating age related biomedical and outcome based clinical research, providing geriatric educational resources and training for students and VA health care providers, and by testing clinical demonstration projects.
