Cleveland, Ohio 44109-1998

The **Center for Health Care Research and Policy** is a community of scholars who conduct multi-disciplinary research and training in health care delivery, health care economics and policy, and clinical decision making. The Center's faculty includes 17 core physicians and doctorally-trained investigators and 9 affiliated Senior Scholars from throughout the Case Western Reserve University community. Our scholarship is supported by the MetroHealth System and a broad portfolio of federal and foundation grants for research and training. The Center's home on the second floor of the Rammelkamp Building at MetroHealth Medical Center serves as a special place where faculty and students from graduate training programs meet to conduct research and exchange ideas.

Our two-fold mission is to: "(1) improve the health of the public by conducting research that examines access to health care, increases the quality of health care services, and informs health policy and practice; and (2) lead educational programs that promote these goals."

Center faculty take special interest in these areas as they pertain to urban and disadvantaged populations. Further, we view Greater Cleveland as a laboratory for our research and training, recognizing the national relevance of regional challenges and opportunities to study and improve health care delivery and policy. For more information on the Center and our current activities, visit www.chrp.org.

**CENTER FOR HEALTH CARE RESEARCH & POLICY
CORE FACULTY AND STAFF – 2009**

Core Faculty

Shari D. Bolen, MD, MPH

Assistant Professor of Medicine,
Epidemiology and Biostatistics

Shari.bolen@case.edu

Research Interests: Epidemiology, systematic review and meta-analysis, health services research in obesity and diabetes.

Randall D. Cebul, MD, Director

Professor of Medicine,
Epidemiology and Biostatistics

rdc@case.edu

Research Interests: Clinical decision support; quality of care measurement and improvement, population health, clinical epidemiology, and health policy; chronic illness care and outcomes.

Alfred F. Connors, Jr., MD

Rammelkamp Professor and Chief Medical Officer
Senior Associate Dean for Medical Affairs

aconnors@metrohealth.org

Research Interests: Evaluation and measurement of patient outcomes, determining effectiveness of therapy, devices and processes of care, medical decision making, management of the seriously ill, and cost-effectiveness analysis.

Neal V. Dawson, MD

Professor of Medicine,
Epidemiology and Biostatistics
Director, Health Care Decision Making Unit

nvd@case.edu

Research Interests: Clinical epidemiology and research methods, clinical prediction rules, multivariable analyses of large databases; chronic illness and primary care screening and management.

Douglas Einstadter, MD, MPH, FACP

Professor of Medicine,
Epidemiology and Biostatistics

dxe10@case.edu

Research Interests: Use of large databases in health services research; application of Geographic Information Systems to health services research; use of informatics to improve quality of care.

Irene L. Katzan, MD, MS

Assistant Professor of Neurology
Director, Stroke Outcomes Research Program

ikatzan@metrohealth.org

Research Interests: Outcomes of stroke and other neurologic diseases; especially effectiveness of stroke therapies in the community setting, effect of medical complications on outcomes after stroke, health care utilization for stroke.

Thomas E. Love, PhD

Associate Professor of Medicine,
Epidemiology and Biostatistics
Director, Biostatistics and Evaluation Unit

Thomas.Love@case.edu

Research Interests: Statistics in health services research, observational studies and propensity score methods, quality improvement, psychometrics, statistics education.

Rhoderick N. Machekano, PhD, MPH

Assistant Professor of Medicine
Rhoderick.Machekano@case.edu

Research interests: Statistics in health care research, methods in analysis of longitudinal studies; adherence; HIV infection.

Elizabeth D. McKinley, MD, MPH

Assistant Professor of Medicine,
Biomedical Ethics and Epidemiology
and Biostatistics

Dean, Emily Blackwell Society,
Case School of Medicine

Elizabeth.McKinley@case.edu

Research Interests: Improving the process and outcomes of breast cancer care, uncertainty in breast cancer, breast cancer survivorship.

Patrick K. Murray, MD, MS

Associate Professor of
Physical Medicine and Rehabilitation
and Epidemiology and Biostatistics
Co-Director, Program on Research and
Education in Aging

pkmurray@metrohealth.org

Research Interests: Post-acute care and health care policy; outcomes of rehabilitation services in nursing homes; improving quality of life in long-term care; large databases.

Adam Perzynski, PhD

Senior Instructor of Medicine

Adam.Perzynski@case.edu

Research Interests: Mixed methods research, health measurement, social influences on health behavior, neighborhood disadvantage and health; structural equation and latent variable modeling, social informatics and social theory.

Mary Jo Roach, PhD

Assistant Professor of
Physical Medicine and Rehabilitation

mroach@metrohealth.org

Research Interests: Spinal cord injury; community integration; quality of life; medical decision making.

Julia Hannum Rose, PhD

Professor of Medicine and Oncology
Co-Director, Program on Research
and Education in Aging

jhr8@case.edu

Research Interests: Caregiving and decision making among the elderly and their caregivers; caregiver burden among the frail elderly, especially those with cancer.

Eileen L. Seeholzer, MD, MS

Assistant Professor of Medicine

eseeholzer@metrohealth.org

Research Interests: Health services research in populations; obesity and weight management; translating evidence-based research into practice.

Ashwini Sehgal, MD

Duncan Neuhauser Professor of
Community Health Improvement
Director, Center for Reducing Health Disparities

axs81@case.edu

Research Interests: Identifying and overcoming barriers to quality of care, complex health interventions, adequacy of hemodialysis, nutrition in renal failure, access to kidney transplantation, medical activism.

Joseph J. Sudano, Jr., PhD

Assistant Professor of Medicine and
Epidemiology and Biostatistics

jsudano@metrohealth.org

Research Interests: Disparities in health care access, utilization and health outcomes concentrating on minorities and other vulnerable populations; social determinants of health; cross-cultural health status measurement, health related survey data.

Mark E. Votruba, PhD, MA

Associate Professor of Economics and Medicine
Schools of Management and Medicine
Director, Health Economics Research Unit

Mark.Votruba@case.edu

Research Interests: Health economics: allocation of medical resources, incentives for care, insurance markets. Public economics: social program participation, social interactions effects.

Senior Scholars

Jennifer L. Bailit, MD, MPH

Associate Professor of Reproductive Biology
Department of Obstetrics and Gynecology
MetroHealth Medical Center

jbailit@metrohealth.org

Research Interests: Assessment and improvement of obstetrical care; large datasets, birth certificate data, cost-effectiveness.

Carol Blixen, RN, PhD

Associate Professor of Medicine

Carol.blixen@case.edu

Research Interests: Clinical decision making in health care; qualitative research methods; focus groups; nursing research.

Jeffrey A. Claridge, MD

Assistant Professor of Surgery

jclaridge@metrohealth.org

Research Interests: Health care delivery research and clinical informatics for surgical decision support.

Robert B. Elson, MD

Healthcare Program Manager,
Regional Stimulus Office
OneCommunity

bob.elson@gmail.com

Research Interests: Health information technology, e-prescribing

David C. Kaelber, MD, PhD, MPH

Assistant Professor of
Internal Medicine and Pediatrics
and Chief Medical Informatics Officer

dkaelber@metrohealth.org

Research Interests: Personal health records, electronic medical records, clinical decision support, telemedicine, the teaching of medical informatics to medical students and resident physicians, using electronic medical records for chronic disease detection and management, and other areas of clinical informatics, as well as research in med-peds.

Center for Health Care Research & Policy
Progress Report - 2009

Richard A. McCormick, PhD

Consultant, Clinical Psychologist
dickmccor@aol.com

Research interests: Clinical psychology; evaluation and treatment of patients with substance abuse including seriously mentally ill patients comorbid for substance abuse; psychological factors that influence health behaviors, including substance use and misuse.

Duncan vB. Neuhauser, PhD

Charles Elton Blanchard, MD
Professor of Health Management
Professor of Medicine, Epidemiology and Biostatistics, and Family Practice
Duncan.Neuhauser@case.edu

Research Interests: Quality improvement in health care; ongoing randomization in health care research; cost-effectiveness analysis.

James B. Rebitzer, PhD

Professor and Department Chair
Boston University School of Management
james.rebitzer@case.edu

Research Interests: The economics of organizations and incentive systems, personnel economics; health economics; labor economics; behavioral economics.

Martha Sajatovic, MD

Professor of Psychiatry and of Epidemiology and Biostatistics
martha.sajatovic@UHhospitals.org

Research Interests: Illness outcomes in serious mental illness, psychopharmacology, women's mental health, immigrant/minority health, mental health rating scales.

Senior Researcher

Thomas P. Swales, PhD, ABPP

Assistant Professor of Psychiatry,
Psychology and Pediatrics
and Epic Fellow in Clinical Informatics
tswales@metrohealth.org

Research Interests: Health care delivery research and clinical research informatics in psychiatry and psychology; barriers to integrating psychiatric and general medical care.

DIRECTOR'S SUMMARY

Randy Cebul

It is a pleasure for me to highlight activities and accomplishments of the CWRU-MetroHealth System *Center for Health Care Research and Policy* during 2008-09. Since last year's report, we have continued to strengthen our leadership and partnerships in multidisciplinary research and training throughout northeast Ohio, increasing our reach and community impact. New faculty and Senior Scholars are expanding our capacity in comparative effectiveness research, health information technology research and applications, and in the social and behavioral sciences. Research awards have focused increasingly on using and expanding region-wide networks to evaluate and improve outcomes of care for chronic health conditions – such as obesity, diabetes, stroke, and heart disease – using our ambulatory and hospital-based electronic medical records.

Recognizing the vast research potential of our large clinical data repositories, this fall's *Center* retreat at Squire Valleevue Farm engaged faculty and guests in discussions on database applications that ranged from genetic epidemiology to behavioral economics. As this report is being finalized, we are preparing research applications in response to new federal funding opportunities in these high priority areas to better understand and improve the nation's health.

This Executive Summary includes brief descriptions of growth in Center faculty and programs during 2008-09 along with selected awards, publications, and totals of grant awards active during the current calendar year. For a detailed description of grants, training and mentorship activities, and our scholarly and community service, download our complete Progress Report at www.chrp.org.

A RECENT DEPARTURE AND NEW ARRIVALS

We were sorry to see our valued colleague Jim Rebitzer leave CWRU for Boston last summer, although we were pleased that he sought to keep his post as Senior Scholar, making him the *Center's* first official long-distance link! Jim accepted a post as Professor of Economics and Chair of Boston University's Business Policy and Law Department in its School of Management and can be reached at rebitzer@bu.edu. We look forward to continuing our collaborations with Jim on work that highlights the economic and health implications of fragmentation in insurance markets and health care delivery systems.

Shari Bolen

Adam Perzynski

At the same time, we were delighted to grow the ranks of the *Center's* junior faculty during 2009. Shari Bolen, M.D., M.P.H., a general internist and epidemiologist, was a 2008 arrival from Johns Hopkins School of Medicine, bringing strong skills in comparative effective research with a focus on treatments for obesity and diabetes. Shari was appointed Assistant Professor of Medicine in July and was among a select group of talented applicants to receive a post-doctoral training award in multi-disciplinary clinical research through the KL2 program of

the Cleveland's Clinical and Translational Science Collaborative (CTSC). Joining her in July as Senior Instructor in Medicine was Adam Perzynski, Ph.D., who recently completed his doctoral degree in medical sociology from CWRU. Adam brings strong quantitative skills to the study of social and environmental influences on health behavior, with a special focus on chronic diseases among disadvantaged populations.

David Kaelber

Jeffrey Claridge

David Kaelber, M.D., Ph.D., M.P.H. and Jeffrey Claridge, M.D., M.S., joined the ranks of the *Center's* Senior Scholars this year and will expand our growing strengths in health information technology. After a two year hiatus at Harvard's Center for Information Technology Leadership, David returned to Cleveland to serve as MetroHealth's Chief Medical Information Officer and accept faculty positions as Assistant Professor of Medicine and Pediatrics. David's mission is to establish Cleveland as a national leader in the research applications of electronic medical records, with a special personal commitment to applications in obesity and diabetes. Jeff joined the CWRU faculty as Assistant Professor of Surgery (trauma, bariatrics) and CTSC research trainee in 2005, completing his M.S. in Clinical Research in 2008. Jeff's research includes the use of electronic medical records data and decision support systems to improve the care and outcomes of trauma patients. Both David and Jeff are emerging as rising academic stars nationally and valued regional collaborators, assuming important leadership roles in the CTSC and cross-institutional partnerships in trauma care, respectively.

MULTI-DISCIPLINARY RESEARCH GRANTS, PUBLICATIONS, AND AWARDS

Including external awards to our faculty as Principal or Co-Principal Investigator, *Center* grants total over \$6 million during calendar 2009, including grants supporting research (\$5.5 million) and multi-disciplinary training (\$1.0 million). Reflecting our strong collaboration with others in Greater Cleveland, calendar year support for all grants totaled over \$21 million.

These grants increasingly support regional networks that use health information technology to study and improve the health status of Greater Clevelanders. Illustrative is work supported by the Centers for Disease Control and Prevention, in which Dr. Irene Katzan is studying factors that are associated with adverse post-hospital outcomes among stroke victims hospitalized in 17 of the region's hospitals. In a partnership of primary care practices and 10 regional hospitals, the multi-stakeholder Better Health *Greater Cleveland* program seeks to both improve ambulatory care and reduce hospital re-admissions for patients with chronic conditions. Supported principally by the Robert Wood Johnson Foundation as one of 15 "Aligning Forces for Quality" communities nationwide, *Better Health* is unique in its use of electronic medical records for measurement and its commitment to reduce health disparities and publicly report its results by insurance, race, education, and household income.

Our faculty's work is represented in 141 manuscripts published or in press during 2008-09 and an additional 41 letters, technical papers, and reviews. Publications reflect the multi-disciplinary nature and collaborations of Center faculty and include over 20 papers published with post-doctoral students as co-authors.

SELECTED AWARDS AND SPECIAL RECOGNITIONS	
Mt. Sinai HealthCare Foundation: 2009 MAURICE SALTZMAN AWARD	Randall D. Cebul, M.D. Better Health <i>Greater</i> Cleveland
Ladies' Home Journal: 2009 HEALTH BREAKTHROUGH AWARD	David C. Kaelber, M.D., Ph.D., M.P.H. Using EMRs to Find High Blood Pressure in Children
Society for Medical Decision Making: 2008 BEST PAPER BY A YOUNG INVESTIGATOR	Jennifer L. Bailit, M.D., M.P.H. Mark E. Votruba, Ph.D. Medical Cost Savings Associated with 17-HP
BEST DOCTORS IN AMERICA	Alfred F. Connors (Pulmonary and Critical Care) Neal V. Dawson (General Internal Medicine) Irene L. Katzan (Neurology) Patrick Murray (Physical Medicine and Rehabilitation)
American Statistical Association 2009 ELECTED CHAIR, HEALTH POLICY SECTION	Thomas E. Love, Ph.D.
American Psychiatric Association: ELECTED DISTINGUISHED FELLOW	Martha Sajatovic, M.D.
American College of Surgery: 2009 MENTORSHIP AWARD, BEST RESIDENT PAPER	Jeffrey A. Claridge, M.D., M.S. Validation of SIC-IR to Improve ICU Outcomes
Cleveland CTSC: KL2 TRAINING AWARD	Shari D. Bolen, M.D., M.P.H. Factors Associated with Good Diabetes Outcomes
NIH-NCI: PRACTICE BASED RESEARCH NETWORK FELLOWSHIP	Eileen Seeholzer, M.D., M.S. Behavior and Obesity in the Community

Selected awards during 2008-2009 to *Center* faculty and Senior Scholars are highlighted above, including community recognition for successful region-wide partnerships and a national award for research published in *JAMA* demonstrating the use of electronic medical record systems for identifying high blood pressure in children. Other awards recognize the exceptional clinical talents of four physicians in the *Center* and our ongoing commitment to mentorship and training of students and our junior faculty colleagues.

CHALLENGES AND OPPORTUNITIES AHEAD

I write this summary at a time of profound and continuing economic challenges as well as hope. National leaders are increasingly recognizing the need for substantive health care reform and the value of building our infrastructure for health care delivery and for health-related research. Many of the themes being discussed and initiated at the federal level – including attention to payment reform, health insurance, the epidemic of chronic medical conditions, and the need to expand and “meaningfully use” health information technology - represent core values and skills of *Center* faculty. These themes and related new funding streams represent opportunities both to strengthen our regional leadership and our partnerships with others. We continue to be grateful to the MetroHealth System for its unwavering commitment to our values.
